

# EasyIQ Administration

## User-friendly administration!

EasyIQ Administration is a graphical add-on to EasyIQ Basic. This module contains a great number of tools for e.g. cleaning-up groups, compiling statistics as well as configuration of the installation. Everything is presented in a graphically nice and user-friendly interface.

### - user interface in EasyIQ Administration

Furthermore, EasyIQ Administration contains a special blocking function, which is valuable e.g. in relation to course participants who have not paid their course fee.

## [EasyIQ]

Systemtech

EasyIQ is a module-based provisioning platform developed for the educational sector in close co-operation with educational institutions.

EasyIQ contains of two basic modules and a number of sub-modules. This way, the educational institution only needs to choose the modules that corresponds to its specific needs.

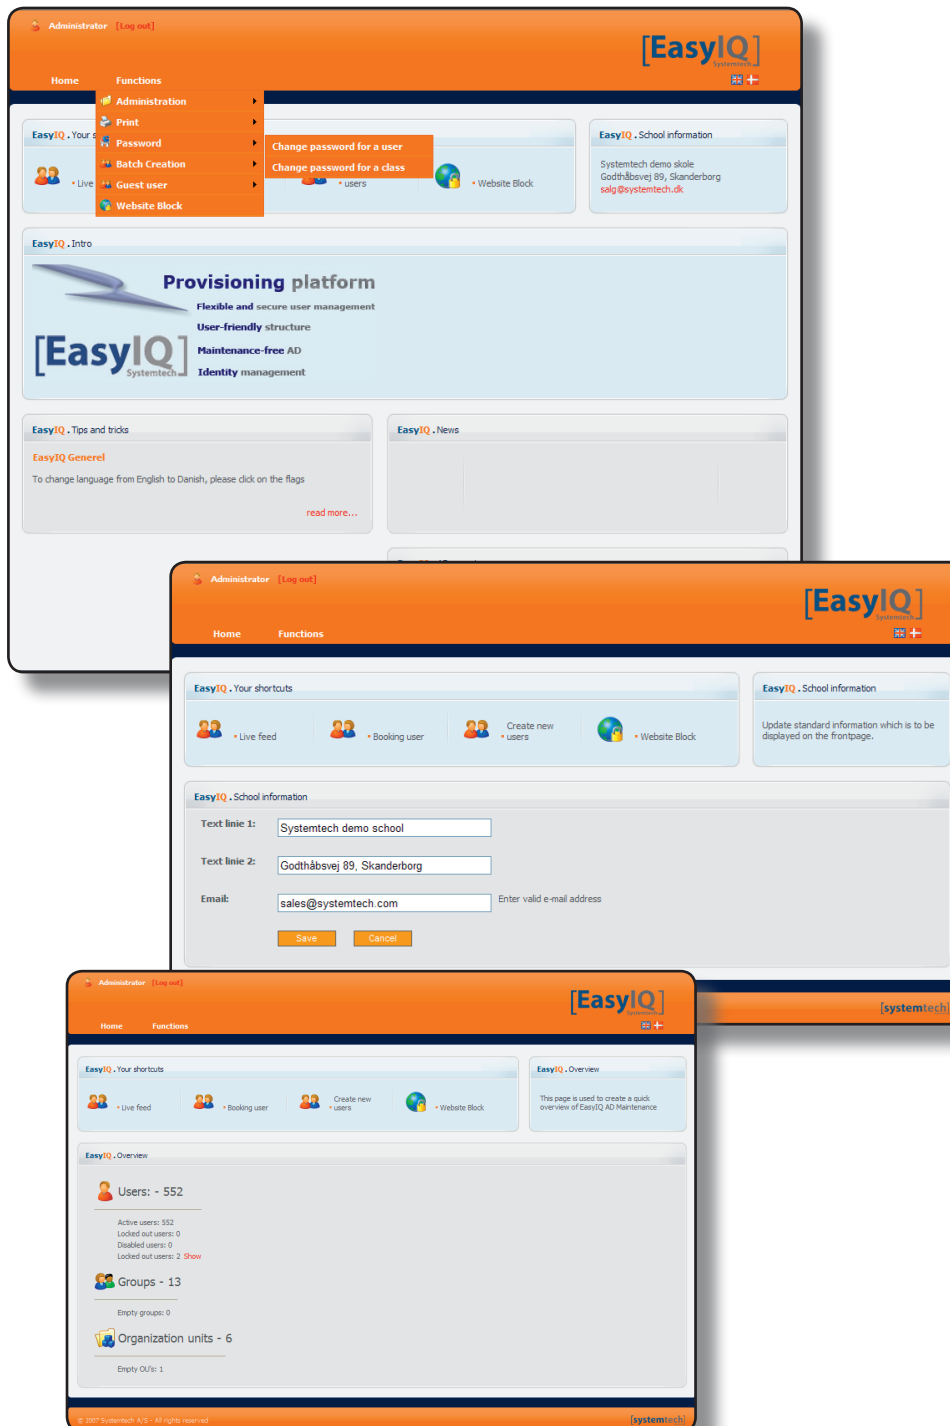

See a list of the additional modules on the next page.
