

EasyIQ Guest User

Improve security!

EasyIQ Guest user is an add-on to EasyIQ Batch Creation. This module provides you with the opportunity to identify the individual guest user. Identification of users gives security pride of place as well as you are given a perfect overview of the individual guests.

Username:	Booked for:	
GuestUser1	Jens Hansen	✓ [icon]
GuestUser2	Sven Jensen	✓ [icon]
GuestUser3	Aage Jensen	✓ [icon]
GuestUser4	bendte Strid	✓ [icon]
GuestUser5	Charles T. Urbo	✓ [icon]
GuestUser6		[icon]
GuestUser7		[icon]
GuestUser8		[icon]
GuestUser9		[icon]
GuestUser10		[icon]

- A nice overview of guest users

EasyIQ Guest User makes it possible to delegate the job to create and maintain users to e.g. the teachers or any other superuser, and thereby relieve tasks from the IT department.

Besides the security aspect, time-saving and clearness are the keywords of EasyIQ Guest User. User logins can be reused by the following guest users and, consequently, you have a better overview of guest users, due to a shorter list of user logins.
